ELD formative assessment guide

Overview
In Amplify ELD, teachers utilize a rubric to formally and informally assess student progress on the following: conversation and discussion on familiar topics, reading text and discussing it, writing for conversation (about experience), writing about text, and language connections. The rubric details early and exit skills for each ELD level (Emerging, Expanding, and Bridging). Within these activities, teachers can assess various skills (CA ELD Standards skills). Teachers can use this rubric for informal and formal assessments. Every time the students are working on an activity, the teacher can assess what level the students are working in according to the specific skill sets for that language domain.
